

WHAT STRENGTH IS HERE! Steam and electricity, heat and pressures; but also men at work! Power harnessed for a nation that feels its duty to help mankind. Millions of men at the front and millions more preparing to go. Millions of other men at home being saved by the cold wet soldier on the firing line. How much they depend on good materials we can send them! We are making the sinews of war. They are the warriors. We are partners together. Each serves the other and we win or lose together.

THE SOLDIER at the front may save our bodies from disaster but he cannot save our soul. God must do that. We cannot be men of truth and character if we let those fellows down. They are risking their lives in our military service. Let's gird ourselves for the task. Let's be brothers of the spirit with our fighting men wherever they may be.

OUR JOB is pleasant work compared with what our great armies are doing. Let's not complain. Let's pay our taxes with a smile. Let's honor the men who are dying for us. Let's nerve them to fight their best by not failing them on the home front. May the great industrial power of the Democratic nations of the earth together with the very best from every citizen, defeat the tyrants of greed and hate.

YOU IN THE CHURCH
THE CHURCH IN YOU

Character is a byproduct of the church. It is here that young and old alike are showered with benedictions that fortify and inspire for a better citizenship and a stronger democracy. In the church the ministerial and teaching religious character, divines make the church the abode of unity in these perilous times. Then we will our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular church-goer and a duty filled reader.

1952 Worst Polio Year Since 1916

By ROY O. GILBERT, M.D.
 L.A. County Health Officer

The worst polio year since 1916! This was the statement issued by certain medical authorities concerning the polio epidemic of 1952. Upon closer scrutiny, however, this is not as bad as it sounds. Fewer than 2000 patients died from polio during 1952, which was less than the number caused by syphilis, diabetes, chronic nephritis, ulcers, suicide, or murder.

The dread that is caused by the disease is not entirely based on the fact since the chances of getting it in serious form during an epidemic are less than is generally supposed.

The crippling effects of the disease, which provide the most dramatic impact on the senses, occur in but 14 per cent of all recorded cases. Even within this relatively small group in the nation's population, the handicaps resulting from such crippling are often of a minor nature.

When polio is prevalent, usually during the late summer and early fall, suspected polio cases in this area are usually sent to the County General Hospital. Some of these, after clinical and laboratory tests, are found to be another disorder. Polio is not an easy disease for the physician to diagnose, and symptoms are often confused with those of other minor ailments among them the common cold. During 1951, for instance, 423 such individuals from the Los Angeles County Health Department area were admitted to the General Hospital and later discharged as suffering from some malady other than polio.

In the age group of greatest susceptibility (between 5 and 20 years), the much-publicized preventive gamma globulin, although scarce, will be available for administration upon advice of the physician if exposure to the disease has occurred. This confers an immunity which lasts from five to six weeks.

Research on polio vaccine, which is expected to produce a lasting immunity to the disease, is progressing most favorably and it is hoped that it will be available to the public in the not very distant future.

Meantime, it is well for parents to follow preventive precautions as published by the National Foundation for Infantile Paralysis:

Let children continue to play and be with their usual companions. They have already been exposed to whatever polio virus may be in that group, and they may have developed immunity (protection) against it.

Teach children to scrub their hands before putting food in their mouths. Polio virus may be carried into the body through the mouth.

See that children never use anybody else's towels, washcloths, or dirty drinking glasses, dishes, and tableware. Polio virus could be carried from these things to other people.

Follow the doctor's advice about nose and throat operations, inoculations, or teeth ex-

Here's a Chance To Know Your Neighbor Better

Did you ever wish there was some way to get to know your neighbor better, or to meet other members of this fair community? Well, here's your chance. Gather your family together, and maybe a group of friends, and journey down to the Recreation Park on Aug. 22 and enjoy the community picnic being sponsored by the Businessmen's Club. Games galore and plenty of eatable material will be handy, and fun for one and all are on the agenda, so don't miss it. Remember the date, August 22, and join in the fun. Was there ever a better way for getting acquainted?

It's the Law!

According to City Ordinance No. 352, any stolen or lost or abandoned property turned over to the police that exceeds \$20 in value, becomes city property after the Chief of Police publishes information on the property in the Torrance Herald for three successive weeks and if the owner does not claim the property within one year after such publication. The Chief of Police is then authorized to sell said property at a public auction, which must take place at least one year.

ELECTION FINE
 Australians are fined two pounds, about \$4.50, for not voting.

COTTON CENTER
 Nearly one-tenth of the cotton raised in the United States is grown in Alabama.

 NOTICE OF PUBLIC HEARING
 NOTICE IS HEREBY GIVEN that an additional public hearing will be held before the Torrance Planning Commission on August 19, 1953, at 8 p.m. in the Council Chamber, City Hall, Torrance, on the following matter:

CASE NO. 265: Change of Zone indicated by the Torrance Planning Commission on Yukon Avenue and 174th Street, as indicated on map marked "Exhibit B" on file in the office of the Torrance Planning Commission, Room 2, City Hall, under Case No. 265.

All persons interested in the above are requested to be present at the hearing.

TORRANCE PLANNING COMMISSION
 Earl A. Lloyd, Secretary
 S-Aug. 16, 1953

The time? Last Saturday evening. The place? The John Chaudano home on Ocean Ave. Reason? Seems another little bundle of joy is expected at the Robert Cramer home on Los Codona and a group of friends decided to surprise Jean with a stork shower in honor of the occasion. Surprised she was, too, when she opened the door to a chorus of "surprise! surprise!" The evening was then cheerfully spent in making the party a memorable one.

Small, gaily-colored parasols with ribbon streamers in pink and blue hovered over the little nuptials made in miniature buggy form in pastel colored crepepaper. The presents were all hidden away with the honoree searching for them according to clues given on slips of paper and handed to the guests.

Games were played with Fern Trantham winning first place for putting the most clothespins on the line, while Georgia Cramer walked off with the prize for waxing most poeple on the coming event and the (time) thereof, the many lovely gifts were opened among "ohs!" and "ahs!" A delicious fruit cocktail of fresh melon and grapes was served, accompanied with cookies cleverly shaped to resemble little saucers. Spiced tea

helped make the evening complete. Co-hostesses for the party were Betty Chaudano and Gerrie Bowen. Guests included Marie Cunningham, Joyce Beers, Joyce Radtke, Fern Trantham, Mary Pearson, Margaret Falkenstein, and Margaret Tinkle. "Hank" Tamey, Erle Gordon, Georgia Cramer, Peggy Gehres, and yours truly.

Mrs. Carl Miller and Mrs. Libby Jones of Nevee Ave. are spending a few days with Mrs. Miller's mother in Huntington Park.

The Raymond Tabers of Hawthorne Blvd. spent a pleasant week-end in San Diego last Saturday and Sunday.

RACING PROFIT
 California netted more than \$14 million from horse racing in fiscal 1952.

Reflections
 By J. HUGH SHERFEE, JR.

FAIR FUN
 Hot sun makes the sun grow; also, at a Fair, it brings out latent smiles and happy greetings. You can bet on a race but better, you can bet on a cheery greeting from friends; the first you may lose but the second is a sure thing.

The biggest hog, ear of corn or squash is small in comparison to the festive spirit at our Fair. It's all FAIR-FUN from turnstile to homeward journey. You'll be wealthy in experience, rich in human companionship, with enough good laughs to last until next year. Human beings are gregarious; our greatest punishment is to be confined, away from others; our Fair is where you'll mingle and share that human spark that makes life worthwhile, that gives it zest and meaning.

You'll be there to say, "Hello" to you.
